in their arms, they walk with a lightness that is astonishing. Father Perpetua was with me, a few days since, at this fountain; he wished, out of devotion to drink its water, and asked a woman for some who readily gratified him. I drank in my turn, and I thought it right to express my thanks by offering this woman a piece of money. She peremptorily refused it, and even appeared offended, to judge from the significant gestures which she addressed to her neighbors. I was the more surprised, as it was the first time that I had met with refusal from an Arab.—*Geramb's Pilgrimage.*

AWFUL MASSACRE.

Destruction of Indian Key by the Indians, and the Massacre of the Inhabitants.

The schooner Victoria, Capt. Kenyon, arrived at Quarantine last evening from Key West, reports the destruction of Indian Key by a party of from 100 to 150 Indians, and the murder of several of the inhabitants. The following letter from the correspondent of the Courier, furnishes a detailed account of this affair:—

Key West, August, 1840.

Dear Sir—We were alarmed on the morning of the 8th instant, by the arrival here of a great part of the inhabitants of Key Vacas. They had left their homes in consequence of the arrival of a small boat, with some negroes from Indian Key on the morning of the 7th, who reported that a number of Indians had landed on Indian Key, immediately after the moon had gone down; they took from 100 to 150 in number, that morning, and had murdered all of its inhabitants, and burnt their houses. A party from this place immediately went on board of the wrecking sloop Vevilia, and started. They had not proceeded many miles, when they encountered the wrecking schooner Gen. Washington, direct from Indian Key whose captain informed them, that it was unnecessary for them to proceed further, as all of the houses, except one, owned and occupied by Mr. C. Howe, the Indians had left the Island about 10 o'clock, A. M. of the 7th, taking away all that they wanted, in the boats belonging to the Key. It appears, as soon as the alarm was given by the yells of the Indians, Mr. Houseman and wife, and Mr. Howe, wife, and five children, were successful in making their escape, and went to Tea-Table Key, which is about one mile and a half. Dr. Perrin, wife, and three children, remained in their house for a short time, when the Doctor went to the cupola and spoke to the Indians in Spanish—but it is supposed they then shot him, for he was not again seen. His lady, with her two daughters and son, retreated to the Turtle Crawl, near the house, watched their opportunity and while the Indians were plundering, started in a boat for an old hulk, lying about two hundred yards from the Key, where they remained until day-light, when they were taken away by a boat from Tea-Table Key. Mr. John Motte, master of the wrecking sloop Key West, with his wife, two children, and his mother, retired for the purpose of securing themselves in the privy; but, poor unfortunate people, they were soon dragged out and Mr. Motte and wife were shot—the mother escaping to the water, by which she was saved—they then dashed out the brains of the two infants against the rocks, and left them with the corpses of the parents. As the house of Dr. P. was burnt, his body must have been consumed in it. A lad, about twelve years, brother of Mrs. E. Smith, hid himself in the cistern of Mr. Houseman's house—with a carpenter named Block—the latter was saved, but much burnt; the lad perished in the flames. The only other person on the Key, at the time of the attack, hurt, was Mr. Otis, a carpenter—he was wounded by a rifle ball, which has been extracted, and he is doing well.

At Tea-Table Key, a U. S. post about one mile and a half from Indian Key, there were about twelve invalids, in charge of a doctor of the U. S. A. The rest of the detachment of Marines, under command of Lieut. Sloan, had left about 48 hours before, in the U. S. schooner Wave, for Cape Romano, to join the expedition of boats in the everglades, under command of Lieut. Com'g M'Laughlin. Nevertheless, the Doctor, so soon as he heard of the attack, with five of his invalids, and Mr. Houseman pushed towards the scene of action, with a barge, in which was mounted a gun, which they discharged on approaching the place—it recoiled and went overboard. The Indians left their plunder, and walked as far as they could in the water towards the boats, distributing themselves and firing, by which they wounded one of the Doctor's men, and obliged him to haul off. The following persons were on the Key at the attack—Mr. Houseman and his wife, Mr. Charles Howe, wife and five children; Dr. Perrine, wife and three children; Mrs. Elliot Smith, child, brother and mother, John Motte, wife and two children, Messrs. Otis, Blocks and Glass carpenters, Mr. Goodhue, clerk of Mr. Houseman's eight men, crew of wrecking sloop Key West, and some ten or twelve negroes, the latter all saved.

Out of this number Mr. Motte, wife and two children, are destroyed, and Dr. Perrine and the brother of Mrs. Smith, with all of the houses, except one of Mr. Howe's. A boat in charge of Charles Stewart, was immediately sent from this place with the news to Cape Florida, and one from this to Cape Romano, with the hopes that some of the Indians might be intercepted on their return. Charles Stewart and one other man had been a hunting, and were in the act of landing on Indian Key, when they were warned by the yells of the savages in time to make their escape.

Mr. Howe's family, and the rest of the unfortunate sufferers, are on board the wrecking schooner Sylph, at Indian Key, awaiting clothes, provisions, &c. from this, all of which have been sent them by the Vevilia, Capt Wood. This is rather an imperfect account, but all the facts are strictly stated.

Suicide—James O'Fitch, an old and respectable inhabitant of Rochester N. Y. formerly an inn-keeper, and engaged in business to a considerable extent, committed suicide in that city on the 19th inst, by drowning himself in the canal.

Fall of the Draw of the State Street Canal Basin Bridge, at Albany.

The Albany papers of Saturday evening, contain the melancholy details of a most distressing and calamitous dispensation which occurred in that city at 5 o'clock that afternoon, just as the Steamboats were departing for New York. The following is a brief account of the catastrophe:

"A Mr. Cavanaugh, a deranged person, of Westmoreland, Oneida, county, under the charge of Messrs. Stevens & Fuller, of that county, on his way to the asylum at Hudson, became refractory when they reached the draw, and attracted a crowd of persons passing to and from the steamboats; and these crowded the passage so as to prevent the progress of the carts, carriages, &c. until the weight became too great and the draw broke, precipitating all who were on it into the basin twenty feet below and in twelve feet water. It is supposed that at least eighty persons fell from the draw; surrounded by horses, baggage wagons, carts, and the falling timbers.

Instantly citizens ran to the scene of danger, and put off in boats to the rescue of those who were struggling for life. The surface of the water was literally black with the moving heads, and with floating hats, papers, &c. As soon as these were taken into the boats, the broken portion of the draw was removed, and then commenced the search and efforts to recover the bodies that had fallen under it.

At sundown, 19 bodies had been recovered, which with one recovered to-day, make an aggregate of twenty persons ascertained to have been drowned.

The names of the persons killed and whose bodies have been recovered, are as follows:—James Hinman, constable; Mr. Driscoll, merchant of Palmyra; Charles Lyon, of Albany; a son of Jacob Henderson, of Albany; a son of Sybrant Kettle, of do.; R. Davidson, a youth employed in the Eve. Jour. Office; a boy belonging to the boat Mohawk, named Groesbeck; Cavanaugh the insane man, and Orin O. Fuller, of Rome, who assisted in taking care of Cavanaugh; Samuel Fisher, lamplighter; Francis Roger, laborer; Thomas McDowell, and Jones, all of Albany; Wm. L. Morey, of Vermont; H. L. Hoffman of Fultonville; Smith Matthews, of Troy; James Quackenbush, a boy belonging to the boat Mohawk; James Welch, hackman, and James Rierdon, carpenter, of Albany; S. A. Chamberlain, of Canada, aged 11 years, a promising boy.

The probability is that all have been found; although there are rumors of one or two missing boys from families in the city.

Eight bodies, not claimed by relatives were deposited on Saturday night in the City Hall. On Sunday morning, 3 of them were removed by friends, and the funeral of the remaining 5 took place from the City Hall, at 1 o'clock, P. M. under the direction of the Corporation, attended by several of the clergy and a large concourse of citizens."

Mr. Purkitt's Temperance Address.

The following is an extract from an Address delivered before several Temperance Societies, on Man's Likeness to God; or the right exercise of his powers; by J. H. Purkitt, Lecturer of the Massachusetts Temperance Society. —

"The best estate of every man lies in the powers of mind with which his Creator has endowed him. That estate is his most precious one; requires the greatest care,—perpetual watchfulness, to keep it in due order; and is, by neglect, the most easily spent and wasted. If that estate be neglected, whether for the punchbowl of the drunkard, or the o'erladen table of the gourmand, to soon it will all run to waste,—become profane and barren;—and what then will be left of that noble likeness wherein the man that owned it was created in the image of his God!

No man can then, even in a little, commit any abuse of the rules of temperance without being called upon to pay the forfeit. By gradual and imperceptible degrees,—slow perhaps, but sure,—the clearness, strength, and vigor, of the powers of mind will be abused in him who habitually indulges in more than is needed by the wants of nature,—though the daily indulgence be out little. The clearness of perception, thought, and reasoning becomes dim. All gradually becomes as it thick, heavy, and clouded. The free stream of thought becomes clogged by the grossness imbibed into the system. —

And as, by little and little, the animal assumes the mastery over all the powers of thought, design, and will, the whole likeness of the image of God, which has long been growing indistinct, becomes wholly invisible and lost.

But the most awful, fearful, violent, and striking form, beyond a doubt, in which this abuse appears is when the mind, formed in the likeness of the image of God, becomes, by a deliberate and voluntary act, totally and suddenly extinguished—to all absolute use or application—by the individual having so strong within him those impulses by which he is allied in likeness to the brutes that perish, that he cannot resist the poison,—the deadly fearful poison,—which is presented to him in the frequent cup in which the ardent spirit, (rightly so named,) the burning essence of all evil, has been distilled. Truly awful is the picture then. Not slow, gradual, insidious;—not by little and little doing its sical thy work,—

though as surely, yet with such slowness as to be often overlooked,—as is the case with him who is destroyed by excess in other ways;—but sudden, total, absolute is the extinguishment of every particle of that by which man stands distinguished from the brutes. Again and again will you often see the same man approach the fatal poison cup,—knowing well what the effect must be,—but yet partaking so completely of the nature of the brutes that perish,—excepting in this, that they distinguish and avoid that which is evil to them, which he has not sufficient power, as it would seem, to do,—that all his knowledge of the ill avails him not;—his power of thought, of will, and of design seems gone, and he drinks the cup, more fatal than the hemlock,—the cup which shall draw him still closer to the likeness of the brutes, and shall destroy all likeness of the image of God within him.

NEWPORT, SATURDAY, August 29, 1840

Rhode-Island Election.

The semi-annual Election in this State for Representatives to the General Assembly, took place on Tuesday last.

In this Town, H. Y. Cranston, Esq. was chosen Moderator.

Asher Robins, Esq. was re-elected first Representative to the Assembly without opposition. Benj. Hazard, Esq., having declined a re-election, Messrs. H. Y. Cranston, R. K. Randolph, and George G. King were successively re-elected; also without opposition. For fifth Representative Mr. George Bowen was nominated for re-election, and Mr. Charles Lawton in opposition, and the vote being taken by ballot resulted,

For Bowen	142,
For Lawton	77,

and Mr. Bowen was declared to be re-elected. Messrs. Charles Lawton, Wm. H. Crandall and Joseph T. Perry were then nominated for sixth Representative, but Messrs. Lawton and Perry declined, and Mr. Crandall was elected.

The representatives from Middletown Portsmouth, Little Compton, and New-Shoreham, were re-elected without opposition.

In Tiverton, S. Seabury, (Whig) was chosen by a maj. of 3, in opposition to J. S. Bliven, V. B.; G. W. Humphrey, V. B. in opposition to Wm. Bateman, W. by a maj. of 3 votes.

In Jamestown, Andrew F. Potter and T. Hull, were elected without opposition, being a V. B. gain of one.

Providence.—John H. Clarke, T. J. Stead, John Whipple, C. Jackson.

Cranston.—Amasa Sprague, George Burton, by 83 maj. over B. Hunt.

In Smithfield, Gloucester, Burrillville, Johnson, and Foster, the former members were re-elected.

Cumberland.—J. Whipple, C. Robinson, by 33 maj. over Dr. Ballou.

In Warwick, East and West Greenwich, and Coventry, the former members were all re-elected.

In Warren, Bristol and Barrington, the former members were re-elected without opposition.

In the County of Washington, all the members from the several towns were re-elected, with the following exceptions:

Hopkinton.—Edward Barber, (Adm.) in place of T. P. Wells, [Adm.]

Exeter.—P. T. Greene, [Adm.] in opposition to J. Hazard, (Adm.)

The Representatives elected, consist of 48 Whigs and 24 Van Buren members—in joint ballot, the Whig maj is 85.

VERMONT ELECTION.

The Election in this State for Governor, Members of Congress, and to the State Legislature, takes place on Monday next.—In our next paper, we shall be enabled to give the result.

WEST-INDIA SQUADRON.

We learn from the Portland papers, that the Frigate Macedonian, and sloop of war Erie, and Levan, arrived at Easport on the 16th inst.—We also learn, that this Squadron may be expected to arrive in our Harbor in the course of ten or fifteen days.

STEAMBOAT BALLOON.

This swift and convenient Boat, commanded by Capt. B. F. Woolsey, resumed her trips between Providence, Bristol, and this Town, on Wednesday last. This fine Boat, with her excellent commander, deserves the patronage of our citizens.

COMMENCEMENT.

The Commencement at Brown University, in Providence, will be held on Wednesday next.

Municipal Affairs.

For the following detailed report of the proceedings of the Town-Meeting on Tuesday, we are indebted to the *Herald of the Times*. —

MUNICIPAL.

The special committee appointed at the June meeting to devise some definite mode of action relative to the Beach and Marsh, and to encroachments on the Beach road, &c., made their report.

They recommend that a fence be put up on the highest part of the beach to divide the Beach from the Marsh;—state that the Marsh when fenced in will let for \$50 per year; that the fence will tend to preserve the Beach, by catching the sand which would otherwise blow over into the pond; and estimate the cost of putting up the fence at \$300.

They also recommend regulations relative to the carting of sand and gravel off the beach; to the encroachments on the beach road; and the immediate repair of the termination of said road.

The first recommendation caused a long discussion, and the report, excepting the last recommendation, was finally recommended for a more particular statement of the rights of the town and the cost of the proposed improvements.

The Street Commissioner was directed to repair the termination of the road, and \$400 was appropriated for that purpose.

The Street Commissioner was also directed to prosecute all persons who had carried off sand or gravel from the beach, contrary to law.

The meeting then adjourned to 3 o'clock, P. M.

AFTERNOON.—Jeremiah Goodspeed resigned the office of Town Crier, and John C. Clarke appointed to fill his place.

Petition of Henry M. Brownell to erect a building for bathing purposes on Easton's beach—granted, and subject to any regulations that the Town Council may hereafter make.

Petition of James Stevens for pay for a quantity of stone furnished Street Commissioners several years since—referred to A. S. Coe for examination, to report at Town Meeting in November.

Upon the report of the committee appointed in August to enquire into the encroachments on the Bliss Road, a motion was made for indefinite postponement and lost. The report was accompanied with a plat of the road taken from the Records in Middletown. The report having been read and received, a vote passed to instruct the Street Commissioner to call on the proprietors of that part of said road lying in Newport, and request them to remove their fences to the line of said road agreeably to the plat presented—and make report at Town Meeting in November.

The Committee appointed to ascertain the probable expense of altering the Theatre into a Hall suitable for Lectures &c. and alterations of Market &c. report that the expense according to their estimate would be \$1050, or less, for altering the Theatre, and \$400 for the Markets. The report having been received, the further consideration of it was postponed to April next, then the subject to be inserted in the warrant notifying the freemen that the same would be acted upon at that meeting.

It having been represented to the freemen that the person appointed in behalf of the U. S. to take the census of this town, had failed to obtain a full and correct account of the number of our inhabitants, it was voted, that Mr. Eluathan Manchester be appointed on the part of the town to take the census according to the manner prescribed by the U. S. and that he be allowed the sum of \$75 for the same.

The following preamble and resolution, offered by E. W. Lawton, Esq. were unanimously passed:

"Our respected fellow citizen, Benjamin Hazard, Esq. who has for so many years so ably represented this town in the General Assembly of this State, having been, under the pressure of bodily infirmities, compelled to retire from its councils where at all times and under every political aspect he has been not only the talented manager of its affairs, but the untiring and unyielding advocate of the interests of the town—

Therefore resolved, that Messrs. E. W. Lawton, George Engs, and George Bowen be a committee to tender him his most hearty and sincere thanks for his long, continued and highly appreciated services.

Voted, That the Town Treasurer, under the advice of E. W. Lawton, George Bowen and Joseph Lyon, mak-

application to the General Treasurer of the State for a loan of so much of the public money deposited by the U. S. with this State as will fall to this town's proportion—to be appropriated according to the law of the State passed January, 1839, for the purpose of education.

The Town Treasurer was authorized to hire the sum of \$600 for the use of the Street Commissioner—200 of which is for the repairs of the streets in town, and \$400 for the west end of the beach.

At the Town-Meeting held on Tuesday last, BENJAMIN HAZARD, Esq. declined re-election as one of the Representatives from this Town to the General Assembly. Mr. Hazard was first elected a Representative in August, 1809, and has since been semi-annually re-elected, during 31 years in succession, being a period of time unexampled in the history of the State.

STATE ELECTIONS.

NORTH-CAROLINA ELECTION. Returns for Governor, from all the Counties, give for

Moorehead, (Whig)	43,744
Saunders, (V. B.)	35,328

Whig majority, 8,416

The votes for Electors in 1836, in the above Counties, were for Van Buren 26,910, and Harrison 23,645—showing a Whig gain of 11,681 votes.

The Legislature will consist of:—Senate 28 Whigs, and 22 Van Buren;—House 75 Whigs, and 45 Van Buren;—showing a Whig gain of 11 members.

INDIANA.—Returns for Governor from all the counties, give Bigger, (Whig) majority of 9,960 votes.

ILLINOIS.—The N. Y. Journal Commerce makes the Van Buren majorities in 74 counties heard from, amount to 3854.—The Legislature will consist of, Senate 26 Van Buren, 14 Whigs, House, V. B. 51, Whigs 40.

KENTUCKY.—Complete returns for Governor, give for R. P. Letcher, (Whig) a majority of 15,842 votes.

The Legislature is, Senate, Whig 23, V. B. 24—House, Whig 76, V. B. 14.

ALABAMA.—The present election is only for members of the Legislature.—As far as heard from, the members chosen are,—Senate, Whigs 13, V. B. 20—House, Whigs 47, Van Buren 53.

MISSOURI.—Returns from all the Counties but five, give for Reynolds, V. B. for Governor, a majority of 6,064.—The remaining Counties will increase his majority to about 7000.

The Legislature will probably stand thus, Senate 15 Whigs, 17 Van Buren, and one vacancy. House, 44 Whigs, 56 Van Buren members.

Massachusetts.—John Reed, who for more than twenty years, has been the representative in Congress from the Barnstable District, in Massachusetts has notified his constituents of his intention to decline a re-election.

MURDER.—The Buffalo Journal says: James Dorsey, a blacksmith, killed his wife by strangulation at Lockport on Sunday last. Dorsey and his victim were both addicted to drunkenness, and when the officers of justice entered the house, they found the corpse lying on the floor, and the wretched man asleep upon his miserable bed.

Mr. John Smith, of Trione township, Fayette county, (Pa.) died on the 15th inst, aged about 31 years. He was strung, on the back of the neck, by Bum blebees, while engaged in making hay, and died of lock jaw about three days afterwards.

The Hon. S. H. Anderson, a member of Congress from Kentucky, died at his residence, near Lancaster, Gerard county on the 11th inst, after an illness of several months—John B. Thompson, of Harrodsburg, is a candidate for Congress to fill the vacancy occasioned by Mr. Anderson's death.

ATTEMPTED REVOLT AT TAMPICO.—The Tampico Desingano of the 30th ult. state, that a plot had just been discovered which created great alarm in the City. It was laid by various Federal leaders, among whom Giosola was the most conspicuous, and had for its object, to raise upon the Central authorities and capture Tampico. The Federalists were betrayed by a Central spy; their plans were frustrated, and all their papers seized.

The same paper says: "We have received information from an undoubted source on the frontier, which confirms our previous accounts, that Canales had received assistance in men and money from the Texian Government, to aid him in attacking Mexico. It is ascertained that he has entered into a treaty to pass over to that Government the sovereignty of New Leon, Coahuila and Tarraulipas. We learn this from a source that admits of no doubt. Canales has ceased to be Mexican and is now essaying to conquer his own country.

FROM THE CAPE OF GOOD HOPE. By the brig Levant, Captain St. John, which arrived at this port on Sunday inst, from Cape Town, we have received the South African Commercial Advertiser, and the Cape of Good Hope sailing List, from the 26th of March to 23d of June, inclusive. They contain little news of interest to the American reader; the only question which appears to be agitated is the controversy between Great Britain and Cape Colony. A portion of the fleet destined for the Cape had touched and sailed. Several vessels are reported shipwrecked, among them the French bark La Lise, which was lost on the night of the 9th of May somewhere in the vicinity of the Cape. The captain, first and second officers, cook, three seamen, and all the passengers, with their servants, (Monte-nauk excepted, the only passenger who was reported shipwrecked, among them were several ladies on board, all perished.

11 M. Cruisers have been busy in the Portuguese slavers—not less than between 15 and 20 are reported to have been captured from March to June.

It is in contemplation to erect a house of the height of 270 feet above level of the sea, at Cape Aguihas.

Letters have been received from Mauritius, dated Port Louis, 20th inst, which state that a severe hurricane visited that place. Seven small vessels were sunk; one totally lost, and all the on board perished. Several large vessels were lost outside. Four ships were driven ashore in the harbor, and all other vessels in port are said to have sustained considerable damage. On the destruction is described to have been awful. Roofs of houses blown off, torn up by the roots, sugar plantations destroyed, and a number of lives lost. The whole ship Araba, Captain Bishop, is reported to have been in to stop a leak, on the 17th April, we do not see her name reported as having sustained damage, or otherwise being the hurricane.—Bos. Morning Post.

Texas dates to the 8th instant have been received at New Orleans.

The Houston Times of the 5th inst. says:—"By a gentleman who arrived this morning from Victoria, we learn that Canales and his army are at San Patricio his force is said to be 900 men, of whom number 300 are Americans, all well armed and equipped for battle; 400 Mexicans and 80 Americans left about 10 miles from the neighborhood of the Grande to attack a party of Centinela who were said to be advancing towards San Patricio. Canabeja has been patched by Canales to Galveston."

DESPATCH.—An order for meeting was sent from here to England the 1st day of July. The goods were bought in London, sent to Bristol by the steamer, and were sold and the proceeds remitted back by the Great Western. It will probably be in London about September 1st. So these three crossings of the Atlantic, with the transaction of the business, and eleven days lost by delays waiting for the steamers to start, will consume but two months.

It is probable that letters sent from Liverpool by the Acadia will receive answers by the Great Western in just about twenty-five days. Money employed in the traffic between Europe and America can now perform about four times as many operations as it could two years ago. Of course the profits on each operation will be proportionately reduced.—The rapidity of intercourse will have powerful tendency to preserve steadiness in the markets. On the other hand, it will deprive our manufacturers of a considerable part of the protection they enjoyed from the great distance of their competitors.—N. Y. Jour. Com.

SHARPS.—A set of villains in St. Louis had recently arranged a plan, by the establishment of an Exchange office near the steamboat landing, for the purpose of inducing the German emigrants arriving from New Orleans to exchange their specie for notes, among which was to be a number of counterfeiters. Some of the party applied to an honest German to lend his aid, in the department of boarding the boats, and persuading his countrymen to call at their office, but they fortunately mistook their man, and the scheme was exploded, though none of the parties can be identified.

ATHRILLING INCIDENT A few minutes before the awful event happened, a lady on board the North America missed her husband, and on hearing of the accident rushed on shore in a state of mental distraction, supposing, he was among the number lost. The husband, little thinking of the anxiety of his wife below, was so occupied, probably, with the scene before him, that he continued on the promenade deck till after the boat had left the wharf. Some few miles down, he went to the cabin to join his wife, and there heard the story of what had happened.—He was immediately landed leaving his trunk behind in his agitation, to seek his wife, for fear her alarm might prove fatal to her before he should find her.

Mr. Sinclair the Vocalist, very narrowly escaped being killed on Thursday night last by the fall of the drop curtain of the theatre, which is attached to a very heavy beam. Just as he had finished a song, the rope which held the counterweight, broke and the drop curtain fell suddenly to the floor, scarcely half a foot from where he stood. Had he made but one step back, which he seemed about to do he would inevitably have been crushed to death by the immense weight of the drop.—Louisville Jour.

CENSUS—We learn that the Census of this Town is not yet completed by the Marshal's assistant.

The Census of Tiverton is completed, and the number is 3,162. In 1830, 2905—Increase in 10 years, 257.

The whole number of inhabitants in North Providence, is 4,207. In 1830, 3305—Increase in last 10 years, 904.

LATE RYM PERNAMBUCO. The sch'r, Rienzi, Capt. Bangs, arrived at this port this morning from Pernambuco, whence he sailed on the 21st ult. Some Revolutionary movements had taken place there, in favor of abolishing the present Regency, but on the day Capt. B. left it had all been suppressed. [Boston Trans.]

FROM FLORIDA we have, via Savannah, Papers of the 21st inst. some further accounts.

A letter from Newmansville, of 10th August, says a negro, hunting on Traver's field discovered five Indians stealing corn. He fired and killed one on the spot; the others fled, when he fired the second barrel, and wounded another.

A few days previous, four families were, it is said, massacred in the vicinity of New River.

A rumor which was doubted, was also floated that seven dragoons and two women, soldier's wives probably, had been massacred 15 miles from Black Creek, on the Newmansville road.

The Tallahassee Floridian, of 15th August states that an Indian was killed in Gadsden county, by a boy who was out deer hunting. The trail of the party to which he belonged, was immediately run upon by a troop of hand—it is not known with what success.

Gen. Leigh Read, as has before been stated in this paper, had been appointed by the President to the command of a brigade of volunteers, authorized by the Secretary of War to be raised.

Asiatic Cholera.—Persons who have been in India during the prevalence of this terrible scourge, represent the disease which visited this country under that name as of a very mild type, and recently such has been the number of experiments in its cure, and their general success, that the epidemic has been stripped of much of its terrors. The free use of ice in that disorder has been attended with the happiest results, yet in India, where no ice can be had, some other application must be found to check its ravages. A medical officer in Bombay has discovered a remedy which has cured fourteen out of fifteen cases. After administering an emetic and copious portions of hot water, the following pills are given, one every quarter of an hour or half an hour, according to the urgency of the case: aloes, grains 250; colocyinth, scammony, gamboge, of each, grs 76; opium, grs 12 1/2; calomel, grs 125—These are to be powdered fine, and beat up with 12 1/2 grains of hard soap, adding mucilage sufficient to form a hard mass; add equal quantities of oil of clove and capnut sufficient to soften the mass which divide into fifty pills, to be kept in close phials. [N. Y. Star.]

The Bermuda Royal Gazette of the 25th, has the following paragraph: "A letter written by a resident in Surinam has been received in town. A Dutch government steamer, from the Gambian coast, had arrived at Faramaribo with fifty wild Africans, indentured to labor as pioneers at the public works, for fourteen years. A French vessel which had attempted the exportation of a similar cargo, had been compelled by the British cruisers to set them free; but had sailed in consequence to lay a narrative of the whole concurrence before the parent government."

The jewellery store of Messrs. Sille, on Broadway, New-York, was robbed on Thursday night last of watches, &c. to the amount of \$400. The robbery, it appears, was effected as early as 10 o'clock, while the gentlemen were enjoying their cigars in front of the Howard House next door, and the watchman supposed to be close in the neighborhood. Both parties had, contrary to the usual custom, gone out after the business was over, and returning soon after ten, discovered that the store had been entered by means of false keys.

Another Shocking Accident.—The Richmond (Va.) Star of Friday evening says:—"We have the painful duty to announce that the steam tow-boat James Gibbon was blown up this morning about twenty-five miles below Richmond by the bursting of the boiler. The Captain's wife, two children, and a servant, were dreadfully scalded. Two of the hands are missing. One of the children, a little boy, five or six years old, died a short time after the accident. The others are considered out of danger. The explosion is represented as most terrific, the boiler being blown entirely out of the boat on an ark, which was in tow, and the escape pipe was blown over in the woods. The sufferers were brought up to the city about 11 o'clock, by the steam boat Patrick Henry. The little child which died was dreadfully burned. We have not learned the probable origin of this shocking catastrophe.

NAVAL RUMORS.—It was rumored yesterday that Commodore Warrington, at present in command of this naval station, has been ordered to the Board of Navy Commissioners, in place of Commodore Wadsworth, appointed to the Ordnance Department. It was also rumored that Commodore Morris was to go to Boston and to take command of the Mediterranean squadron in the spring. There were several rumors about the Navy Yard here and the command of the squadron destined for the China seas, but they were so conflicting as to leave no ground for supposing them to be true. It is now stated that Capt. Jesse Wilkinson will take command of the East India Squadron, and Capt. Morgan the command of the Yard here.

Non-folk Beacon.

THE BRITISH ANTARCTIC EXPEDITION.—We have received files of the Cape of Good Hope Shipping List, from April 7th to June 23d, inclusive. The Erebus and Terror, attached to the British Antarctic Expedition of Discovery, sailed from Simon's Town on the 6th of April, intending to trace their course by Marron and Prince Edward Islands, the Crozetts, to Kerguelan Land, and from thence to Van Diemen's land. The observatory, &c. will be landed there, and while erecting, the vessels will take a cruise along the Australian coast, Port Jackson, &c. and look after Howe Island, Admiralty Rocks, and other very imperfectly known lands, all scattered round New Zealand. After revisiting Van Diemen's Land, the summer months of December, January, February and March, will be spent in fixing the precise spot, where the Antarctic Pole exists, and if they can penetrate to the South, perhaps the expedition will winter there among the ice of the South pole, and then circumnavigate the great polar basin.

New Bedford Register.

CASE OF SUICIDE, OR MURDER, BY POISON.—On Sunday, the 9th inst. Mr. George F. Kinney, trunk and hose manufacturer, was suddenly seized with some violent disorder, exhibiting the common symptoms of Asiatic Cholera, for which disease he was treated by his attending physician. On the succeeding day he died, and his physician not being entirely satisfied of the cause of his death, removed the stomach and placed it in the hands of Dr. Martin Gay, for chemical examination; and after a series of successful experiments, by the most approved tests, Dr. Gay detected arsenic in its metallic state. All the known facts attending the illness and death of Kinney, were on Saturday week communicated to the Attorney General, who expressed an opinion that they were not sufficient to warrant the arrest of any person upon suspicion of having poisoned the deceased. Neither did he advise the holding of a coroner's inquest; but it having been stated, that the former husband of Mrs. Kinney, the Rev. Mr. Freeman, of Lowell, had died under very mysterious circumstances something over four years ago, it was suggested in a body should be exhumed and examined. It was accordingly done, and the intestines of the body found in a remarkable state of preservation—a circumstance of strong suspicion, but not of certain proof that the death of Freeman was caused by arsenic. Before the interment of Freeman, some suspicious were about, and his body was opened, and a partial examination held, in the course of which the stomach was washed out, thus rendering it very improbable that any arsenic will be found in it now and the great length of time which has elapsed since his death, will render it exceedingly difficult to detect its presence in any of the intestines.

Thus far, the prescribed tests have failed, and an entire new course of experiments have been entered upon, which will occupy considerable time; and if, in the end, no arsenic be found, it will prove nothing against suspicion of poison. About the time of Kinney's death, his wife stated she was going on a visit to her friends in Vermont but notwithstanding the movements about the cause of his death, she manifested no symptoms of hurry to depart, and did not leave the city till Friday last. Yesterday morning, it was currently reported that she had been arrested; but such was not the fact, nor has any warrant been issued against her, or complaint entered, and to satisfy our readers upon this point, we called at the jail yesterday. —*Bos. Morning Post.*

Steamboat Miami lost.—We regret to learn by the Louisville mail boat of this morning, the total loss of the steamer Miami. She struck on the same ledge where the Danube was lost last autumn, and on which so many boats have been lost. She was broken a little abaft midships, and her stern part has fallen into fifteen feet water. She was one of the low pressure boats on the Western waters, and was built at Murfreesville, about a year since at an expense of 14,000 dollars. The steamer Platte, from St. Louis, took off her passengers. —*Cin Chron. August 18.*

HORRID MURDER.—The Maysville Eagle contains an account of the murder of Mrs. Snap, committed at her residence near the head waters of Beaver, in Nicholas county, Ky. Upon returning from the fields, the husband found the lifeless corpse of his wife in the yard, a short distance from the house. Suspicion rested upon a fellow named Richey, of bad character in the neighborhood, who upon being secured and examined confessed the deed, and implicated the hunt of the murdered woman, a Mrs. Fuller, as having given him \$5.50 to commit the

act, with a promise of additional funds in future. Jealousy is said to have instigated the deed. Richey and Mrs. Fuller were both committed for trial, the latter seeming to have made no admissions.

More Burning on the Frontier.—Two barns, one belonging to Mr. Richard Fisher, and the other to Mr. J. Atkinson, of Hammingford, were burned to the ground on the night of Sunday last, by the "respectable inhabitants" on the opposite side of the line. The barns were within half a mile of the line, both filled with the newly cut crop of hay, oats and wheat, the whole provisions of the families, and winter fodder for their stock. The sufferers are said to be quiet respectable men. The trail of the incendiaries was followed through the dew, to beyond the lines in their direction of a place called Perryburg in Moortown. The devilish transactions must receive the immediate attention of the Governor General, and the abused people on the whole frontier have a right to know, if any and what steps have heretofore been taken by the Government in parallel cases. —*Montreal Herald.*

Notice.—There will be Service in the UNITARIAN CHURCH, Tomorrow, at the usual hours. —*Newport, August 29.*

BRIGHTON MARKET. Monday, Aug. 24. Reported for the Boston Daily Advertiser. At Market, 490 Beef Cattle, 440 Stores, 4800 Sheep and 920 Swine.

PICES.—*Beef Cattle.*—First quality \$5 75 a \$6; second quality \$5 a \$5 25; third quality, \$3 75 to \$4 25.

Stores.—Sales were not brisk; purchasers are hardly willing to pay the cost of the cattle in the country. We noticed sales of two year old at \$14, 15 and 18; and three year old at \$24, 25, 21 and \$29.

Sheep.—Dull. Lots sold for \$1 25, \$1 33, 1 42, 1 50, 1 67, 1 85, \$2 a and 2 25.

Swine.—Dull. Lots to paddle at 3 1/2 e. 4 or 50s and 4 1/4 a 3 4 for Barrows. At retail from 4 1/2 to 60.

From the Boston Courier, Monday, August 24

WOOL.—There have not been any sale of sufficient extent to require particular notice. Fleece Wool continues to come in pretty freely, and the market is well supplied. The quantity of pulled is rather limited, but will come in more freely as the season advances.

Prices of WOOL.—Prime or Saxony fleeces 45 a 45 cents per lb.; American full blood, washed, 40 a 45; do. 3-4 do. 46 a 42; do. 1-2 do. 35 a 38; 1-4 & common, 32 a 34; superfine Northern pulled lambs 42 a 45, No. 1 do. do. 35 1/2; No. 2 do. do. 23 a 25; No. 3 do. do. 18 a 20.

Married.

In New York, on Monday evening last, by the Rev. Mr. Rice, Capt. John Taylor of this town, to Miss Susan Louisa Downing, daughter of Capt. Benj. Downing, formerly of this town.

In Bristol on the 16th inst. by the Rev. Mr. Scott, Mr. Simon D. Linscomb to Miss Phoebe Menro, both of Bristol.

Died.

In Wickford, Wednesday morning, Mrs. Isabella Vaughan, wife of Rowland Vaughan, in the 76th year of her age; a worthy member of the Society of Friends, and much esteemed by all who knew her.

At Warren on the 8th inst. Mr. John Gardner, aged 60 years.—On 15th inst. Mr. Benjamin Winslow, son of Mr. Ebenezer Winslow, aged 26 years.—On the 18th inst. Capt. Cornelius Bennett, formerly of this town, a Sailing-master U. S. Navy, aged 74 years. At Freedom, Chataque County, N. Y. on the 15th inst. Mrs. Desire Barker, wife of Gen. L. Barker and daughter of the late Mr. Ezekiah Barker, formerly of Middletown, aged 49 years.

At Philadelphia on the 20th ult. Mr. Marcus Earl, of this town, aged 23 years.

The Philadelphia "FRIEND," of the 22d inst. contains a just and well written obituary notice of our esteemed friend, JOSEPH GREENE, of Jamestown, from which we make the following extract:—

"Possessing a strong and discriminating mind, and being deeply interested in the welfare of society, and concerned for the prosperity of truth, he attentively watched the introduction and spread of ungodly principles in some of our neighboring Yearly Meetings by E. H. and his followers; maintaining his testimony to the close of his life against all innovation in doctrine, and every departure from the faith once delivered to the saints, however specious the garb under which such a disposition might appear. His bodily sufferings were great during his last illness; but the language of the Psalmist seems to represent both the state of his mind, and the feelings of those who were with him at the close:—'mark the perfect man, and behold the upright, for the end of that man is peace.'"

—The above arrangement can be depended upon.

N. B.—The steamer Balloon can be chartered to make excursions in the river, upon fair terms.

FREIGHT taken on fair terms.

The public are forbid trusting any one on account of this Boat, without an order from the Captain.

Passengers from New-Bedford or Fall River, by taking the King Philip to Bristol, will there meet the Balloon, and have an opportunity to spend three hours or more in Newport, and return the same day. —*August 29.*

Elegant London Prints,

WHITE Crape, color'd Crape Lisse, & 44 Scotch Gingham's Just received by H. SESSIONS. —*August 29.*

English Merincs.

A LARGE Assortment of 6-4 Merinos, some of them at very low prices, and suitable for Bathing Dresses, for sale by H. SESSIONS. —*August 29.*

PROBATE NOTICES

Court of Probate, Jamestown, Aug. 22, 1840.

WHEREAS an Instrument of Writing, purporting to be the last Will and Testament of JOSEPH GREENE, late of Jamestown deceased, dated the 5th day of the 11th month, 1839, was this day presented for Probate, and Letters Testamentary thereon.

It is ordered, That the same be received, and the consideration thereof be referred to a Court of Probate to be holden at the House of said deceased, on the 19th day of September next, at 2 o'clock P. M.—And it was further ordered, that previous notice be given, by publishing a copy of this Order three several times in the *Newport Mercury*, for all persons interested, to appear at said time and place, and be heard.

A True Copy.—Witness, JOHN READINGTON, Probate Clerk

POSTSCRIPT

From the New-York papers of last evening, we copy the following Returns of the Elections:—

MISSOURI.—Returns from all but five Counties, give a V. B. maj. of 6,054.

KENTUCKY.—The Whig majority in that State, is stated at 15,841.

The new Legislature met in Special Session at Frankfort on the 19th instant.

Gov. Wickliffe's Message is short, and chiefly confined to the object of convoking the Legislature at this time, viz. the enactment of a law for the choice of Presidential Electors, the former law having expired.

At Rochester on Wednesday morning a large four story building, containing a number of stores, machinery, &c. was totally destroyed by fire.

STATEMENT of the situation of the Banks in Rhode Island, on MONDAY, August 3d, 1840.—As the same appears from the Returns made to the Bank Commissioners.

LIABILITIES.

Capital Stock,	\$9,961,915 00
Bills in Circulation,	1,436,682 00
Balances due other Banks,	465,431 33
Net Profits on hand,	414,137 41
Dividends unpaid,	24,638 76
Deposits on interest,	465,658 82
Deposits not on interest,	805,982 27
Total amount of Liabilities,	\$13,554,515 59

RESOURCES.

Loans and Discounts,	\$11,744,460 41
Specie in Banks,	38,393 96
Bills of other Banks,	310,451 50
Balances due from other Banks,	673,764 25
Stock in own Bank,	156,876 95
Stock, real estate & other property,	330,568 52
Total amount of Resources,	\$13,554,515 39

Of the Bills and Notes discount, ed, there is due out of the State the sum of \$3,922,647 41

And payable in the State, 7,821,813 09

Of the Circulation, there is held by the Banks, 235,993 75

In the hands of the Public, 1,180,688 25

By comparing the above Abstract with the returns made to the Commissioners, July 6th, 1840, it appears that since that date, The Circulation has been increased, \$21,552 00

The Specie has been increased, 5,802 32

The Deposits including dividends unpaid, have been reduced, 28,353 43

And the Loans and Discounts have been increased, 58,162 45

Marine and Fire Insurance.

THE AMERICAN INSURANCE COMPANY, PAU, Providence, R. I. continue to insure against Loss or Damage by Fire, on Cotton, Woollen, and other Manufactures, Buildings and Merchandise, and also against MARINE RISKS, on favorable terms. The capital stock is

\$150,000,

all paid in and well invested.—Officers elected June 1st, 1840:—

Martin Stoddard, William Rhodes, Wilber Kelly, Robert R. Stafford, Amos D. Smith, Resolved Waterman, Shubert Hutchins, Ebenezer Kelly, Soomon L. Brown, Nathaniel Burry, George A. Rathbone, Caleb Harris, and Jabez Bullock.

Persons wishing for Insurance, are requested to direct their applications (which should be accompanied with a particular description of the property), per mail, to the President or Secretary of the Company, and the same will meet with prompt attention.

Applications for Insurance in Newport may be made to Mr. GEORGE BROWN, Agent, WILLIAM RHODES, President, ALLEN O. PECK, Secy., American Insurance Co's } Office, June 4, 1840. }

COTTAGE BUILDING LOTS.

FOR SALE.

SEVERAL very delightfully situated pieces of LAND, in the Southern part of the Town of Newport, near to the New Narragansett Avenue, and Bellevue-street—which Land has been recently laid out in Lots of 100 feet square, and will be sold in single Lots, or in larger parcels.

The proximity of this Property to the Town, and to the Beach and Ocean, makes the situation decidedly one of the most convenient, agreeable and interesting for Summer residences, of any on Rhode Island.

A map of the Land may be seen at the Newport Exchange Bank, and terms of Sale made known on application there. —*Newport, August 15, 1840.*

ORLEANS Cloths—extra fine black

—Lining—crane camblets, all price—white and brown linen Drillings—Mexican stripes and mixtures—striped lastings and jeans—for Sale by

June 20,

POETRY.

HOME.

BY ALBERT B. STREET.

Home of the Soul! thy light appears,
A star to cheer Man's gloomy way,
When, pilgrims in this vale of tears,
His wandering steps are turned astray;
Hope leads his pinions to his feet,
Faith sheds its balm within his breast,
And tireless, on he speeds to meet,
Prize of his toils! that goal of rest.

Darkly the cloud hath frowned on high,
Roughly the path before hath spread,
And hence the cloud's defenceless head;
But from that cloud, pure, bright and warm,
Streams to his eye a steady ray,
And in that path he finds an Arm,
His Guide, his Guard, his Hope and Stay.

Oh, who would linger here, while there,
Is bliss that Fancy never dreamt of!
Oh, can we never feel despair,
When such scenes gild our mental view?
Home of the Soul! Earth's brightest things,
Before thy glories fade to naught—
Oh, may our fond imaginings,
With full fruition there be fraught.

ICE CREAMS! ICE CREAMS!

THE Subscriber respectfully gives notice to the public generally, that the Rooms over his Confectionary and Variety Store, opposite the Post Office, are ready for the accommodation of Ladies and Gentlemen who wish to pass an hour or so in refreshing themselves with Ice Creams, and other refreshments usually found at a Confectionary.

N. B.—Ice Creams made to order, and warranted equal to any in town, at 50 cents per quart, and sent to any part of the town, at any hour of the day or evening.

On hand and for sale, a great variety of Fancy Goods and Toys, fancy baskets, willow cradles and waggons, &c. &c.

Confectionary at wholesale and retail, on the most reasonable terms.

Constantly on hand and for sale, a general assortment of Preserves and Fruits—and a host of other articles, too numerous to particularize.

T. STACY, jun.

Newport, July 11.

THE HAIR! THE HAIR!

NO better evidence is wanting to show the superiority of the Genuine Buffalo Oil, over all other preparations, than a number of Druggists are endeavoring to imitate and foster their miserable imitations on the public, for genuine. Read advertisement. Beware of pedlars.

Genuine Buffalo Oil is fast taking the place of all other articles to promote the growth, soften and beautify the hair; its use gives it a softness that no other article does, and causes it to curl beautifully—by free use it will darken and give the hair a satin gloss. It is highly perfumed and gives perfect satisfaction to all that have given it a trial. You will observe the signature of the proprietor, "William Brown," also "Buffalo Oil," imprinted on the bottle. In consequence of a counterfeit which has recently appeared and is now for sale, I have been persuaded to obtain a new label engraved on copper, for which I have secured a copy right, entered according to an act of Congress in 1839, in the clerk's office in the District Court of Massachusetts. Any infringement will be dealt with according to law.

None genuine, unless signed in my own hand writing. For sale in Newport by R. J. TAYLOR and Dr. R. R. HAZARD August, 22.

STATE OF RHODE-ISLAND AND PROVIDENCE PLANTATIONS.

NEWPORT, ss.—Clerk's Office. Supreme Judicial Court, August Term, A. D. 1840.

WHEREAS Borden Wood, of Middle town, Merchant; Edward Gray, of Newport, merchant; Beriah Crandall, of ditto, housewright; all of the county of Newport—bath filed their petitions in this Office, praying for certain reasons therein stated, that the benefit of an Act passed at the January Session, A. D. 1839, entitled "An Act for the relief of Insolvent Debtors" may be extended to them.—This is therefore to notify the creditors of said Wood, Gray, and Crandall, to appear before said Court, to be holden at Newport on the 4th Monday of August, A. D. and show cause, if any they have, why the prayer of said petitioners ought not to be granted.

Aug. 1. E. P. ALLAN, Clerk.

NEWPORT, ss.—Clerk's Office. Supreme Judicial Court, July 9th, A. D. 1840.

WHEREAS CHARLES S. DAVIS, of Lowell, in the State of Massachusetts, wife of Moses Davis, jun. of said Lowell, has this day filed in this Office, her petition, praying for certain reasons therein stated, that a decree should be passed, to dissolve the matrimonial connection subsisting between her and her said husband, Moses Davis, jun. of said Lowell. Notice is therefore hereby given to the said Moses, that he be and appear, (if he see fit) before the said Court, to be holden at said Newport, on the 4th Monday of August next, and show cause, if any he has, why the prayer of said petition should not be granted.

E. P. ALLAN, Clerk.

NEWPORT, ss.—Clerk's Office, Supreme Judicial Court, July 9th, A. D. 1840.

WHEREAS ELIZABETH BARLOW, of the town and county of Newport, wife of Moses Barlow, jun. of said Newport, has this day filed in this Office her petition, praying for certain reasons therein stated, that a decree should be passed, to dissolve the matrimonial connection subsisting between her and her husband Moses Barlow, jun. of said Newport.

Notice is therefore hereby given to the said Moses, that he be and appear, (if he see fit) before the said Court, to be holden at said Newport, on the 4th Monday of August next, and show cause, if any he has, why the prayer of said Petition should not be granted.

E. P. ALLAN, Clerk.

COUGHS, COLDS.

AND ALL DISEASES OF THE LUNGS.

THE VEGETABLE PULMONARY BALSAM is believed to be deservedly the most popular Medicine ever known in America, for coughs, colds, asthma or phthisis, consumption, whooping cough, and Pulmonary affections of every kind.

The Vegetable Pulmonary Balsam has been very extensively used for about 12 years; and its reputation has been constantly increasing. So universally popular has this article become that it may now be considered as a standard article in a large part of the United States, and British Provinces. Many families keep it constantly by them, considering it the most safe as well as certain remedy for the above complaints. The Proprietors have received and are receiving numerous recommendations from many of our best Physicians, who make use of it in their practice. The names of a few individuals who have given their testimony in favor of this article, are here subjoined, and for a more full account see the envelope to the bottle.

Dr. Amory Hunting, Dr. Samuel Merrill, Dr. Truman Abell, Dr. Timothy Bayles, Dr. Thomas Brown, Dr. Jerry Ellsworth, Dr. William Parry, Dr. Albert Guild.

CASE.—Extract of a letter from Mr. C. S. Clay, Kingston, Ulster county, N. Y., to the Proprietors.

Yours of the 9th inst. was duly received.—A remarkable cure was effected by the Vegetable Pulmonary Balsam, in the Winter and Spring of 1839. The person, Mr. Moody, had been sick a long time with the consumption. His physician had given him up. He was reduced so low as to be unable to help himself, and was raising a large quantity of blood, when he commenced using the Balsam, which effected a complete cure, and he is now as hale and hearty as ever he was. Mr. Moody has removed from this town but he has promised me a more detailed account of his case, which I will forward you.

C. S. CLAY, Kingston, N. Y. June 25, 1839.

Agyle Nova Scotia. In the winter of 1837 and '38, I was seized with a violent cough, which continued two or three months. My cough was so severe that I was obliged to sit up in bed two or three hours during the night, and I was much reduced in flesh and strength, and my appetite gone. One of my neighbors had a bottle of the Vegetable Pulmonary Balsam, which he could not sell. He however loaned it to me till I could procure him another. I experienced immediate relief from it. The first opportunity I had, I procured more of it, and to the use of it I ascribe the preservation of my life. Dec. 17, 1838. JAMES W. LENOX.

Counterfeits, Beware of Imposition! Each genuine bottle is enclosed in a blue wrapper, on which is a label, signed by Sampson Reed. None other can be genuine.

The outside Yellow Label will have, on and after December 1839, in addition to that of Sampson Reed, the signature of Wm. Jones, CUTLER, or his partners.

The great celebrity of the Vegetable Pulmonary Balsam has been the cause of attempts to introduce spurious articles which by partially assuming the name of the genuine, are calculated to mislead and deceive the public. Among these mixtures are the "American Pulmonary Balsam," "Vegetable Pulmonary Balsam," "Pulmonary Balsam," "Carter's Compound Pulmonary Balsam," and others. Purchasers should enquire for the true article by its whole name—The Vegetable Pulmonary Balsam, and see that it has the marks and signatures of the genuine. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

ONE MORE COUNTERFEIT, besides the "American Pulmonary Balsam," and others above alluded to.—An attempt has been made to deceive the public by a spurious mixture called "Vegetable Pulmonary Balsam," sometimes signed Samuel Lee—said to be prepared by an unprincipled man in Bangor, Me. The name is written in a way to resemble the genuine signature, and is a most foul attempt to deceive the public, and avoid the punishment that awaits actual forgery.

For sale by REED, WING & CUTLER, (late Lowe & Read) wholesale dealers in Drugs, Medicines, Fats and Dye Stuffs, No. 54 Chatham Street, Boston, and by Druggists and country merchants generally in New England, and in the principal places throughout the United States and British Provinces.—Price 50 cents. Aug. 22—4y.

The above Balsam, is for sale in Newport, by R. J. TAYLOR, Agent, Newport, August 22.

INDIAN BALSAM OF LIVERWORT.

A COUGH is always Dangerous. In an changeable and severe climate, it is of vital importance to attend to COLDS, with which we are all more or less afflicted. If neglected too long, it is difficult to remove them, sometimes impossible, and confirmed consumption is the result. In all Lung complaints, Mrs. N. M. Gardner's Indian Balsam of Liverwort is justly esteemed of infinite value. It has been used for eight or ten years with unparalleled success, and many individuals might be named, who, but for its healing virtues, and renovating powers, would not be present now to testify to its efficacy.

THE above is for sale in Newport, by R. J. TAYLOR, Thames-st. March 30.

COMMISSIONER'S NOTICE.

WE the Subscribers having been by the Court of Probate for the town of Newport, appointed Commissioners to receive and examine the claims of the creditors against the Estate of

PETER DENNIS,

late of Newport, dec. represented insolvent, hereby give notice, that six months from the date hereof, being allowed by said Court for the Creditors to bring in and prove their claims, we hereby give notice that we will attend on said business at the Store of Asa Spencer, on the 24 Saturdays of December, January and February next, at 3 o'clock P. M. for the purpose of examining said claims.

JAMES LAWTON, LEWIS BARLOW, WILLIAM JOURNET, All Persons indebted to said Estate, are requested to make immediate payments to PETER P. REMINGTON, Adm'r. Newport, August 3, 1840.

NOTICE.

At a Meeting of the Directors of the MERCHANTS BANK, on Monday Evening the 15th inst. Thomas Bush was unanimously elected a Director of said Bank, to supply the vacancy occasioned by the death of William Lovie.

By order, C. GYLES, Cashier. Newport, June 29.

THE MOST POPULAR SUMMER BEVERAGE.

IS WM. BROWN'S Sarsaparilla Compound, or MEAD SYRUP.—It is the true and genuine article. Price 50 cents a bottle, with the Soda.

To its extensive use the last summer, is attributed in part the uncommon prevalence of health during the summer season. The strength of this Sarsaparilla is extracted on an entire new plan, by a steam apparatus, that prevents all evaporation, which is very much approved. When made a common beverage, it will purify the blood, and remove all humors from the system. At the rate that it has consumed during the season, I shall extract the strength from ten thousand pounds of Spanish Sarsaparilla. It differs entirely from the common Mead Syrup, and has already gained a reputation as high as its merits are unquestionable. Every body is reading for the article, and every body is complimenting it in the most flattering terms. Indeed it is literally in the mouth of the whole community.

NOTICE.—As an evidence of the superiority of William Brown's No. 1 Silver Top Sarsaparilla Compound or Mead Syrup over all other kinds, and to convince the public that it does contain the virtues of Sarsaparilla, the article that is celebrated for purifying the blood, and removing all humors from the system, and rendering the body healthy and strong.

Certificate of P. B. Fessenden. I hereby certify, that within the last two months, I have prepared in my mill, for Wm. Brown, Chemist, 451 Washington St., Boston, two thousand five hundred pounds of the best Spanish Sarsaparilla, the greater part is already used up in manufacturing his celebrated Mead Syrup. I have further order to prepare more.

P. B. Fessenden, a Cambridge, Mass.

No one doubts its superiority, after reading the directions which enclose the bottle. Many notices are omitted. Dealers throughout the United States can be supplied at the manufacturer's prices by all the wholesale Grocers and Druggists in Boston. Families supplied by all the retail West India Good stores in Boston, Salem, Portland, Newburyport, Worcester, Portland, Springfield—I will keep in all climates, and is well calculated for the Southern market.

For Sale at the Manufacturer's prices by R. J. TAYLOR, Druggist, Thames-street, and Dr. R. R. HAZARD, at the sign of the Golden Mortar, Washington-square.

A NEW BEVERAGE.—Wm. Brown, 451 Washington street, Druggist and Chemist, sells a Syrup, with an effervescent powder, which makes a very agreeable beverage, particularly for warm weather. The principal ingredient in the beverage is iced water, a small quantity of the syrup and powder being necessary to give it sprightliness and an agreeable flavor. It is strongly recommended not only as palatable, but a healthful drink, and its cheapness and convenience give it an additional recommendation.—Boston Daily Advertiser.

SARSAPARILLA.—Wm. Brown has a pure Sarsaparilla syrup of great strength, which used with the powders he sells with it, forms a delightful foaming draught that may be prepared in an instant. He has great skill in getting up such mixtures.—Boston Transcript.

A PLEASANT DRINK.—One of the most agreeable summer drinks is Brown's Sarsaparilla Compound. The press at the North are enthusiastic in its praise, as it is a new and improved Champagne. If not as refreshing it is certainly more wholesome, and has as much brilliancy, it is even in its sparkling effervescence. Let trial be made of it during the remnant of the warm weather.—Charleston Mercury.

A new article of drink is manufactured by Wm. Brown, 451 Washington street, called "Sarsaparilla Compound," very pleasant and wholesome for warm weather.—Christian Watchman.

A SECOND DRINK.—We have had the pleasure of drawing a cork from the second bottle of Brown's Sarsaparilla Mead, and a greater luxury on a hot day we know not of. It delights the palate, cools the stomach and leaves the head unharmed. Such a drink is economical, pleasant and healthy, worth more than fifteen gallons of the "critter," or a cart load of quack medicines.—Gospel Witness, Hingham.

Brown's Sarsaparilla Compound forms one of the most delicious summer beverages we have ever tasted. A syrup of delightful flavor, mixed with water, and a little soda to create an effervescence, form the ingredients of this refreshing drink. The syrup is sold in pint or quart bottles, accompanied by little boxes, containing the suitable proportions of carbonate of soda, and the preparation is perfectly simple and convenient. New York Times.

BROWN'S Sarsaparilla Compound.—This new preparation for the alleviation of thirst makes truly a most delicious drink. We speak that we do know, having poured it down our throats many a time during the late parching days. It is cheap, too. Moreover it is healthful, containing the virtue of the excellent plant from which the compound takes its name.—Vermont Times.

BROWN'S Sarsaparilla Compound.—This delightful and pleasant beverage for the summer is just coming in use, and will soon be an indispensable article in every family. It makes a delightful mead, and is an excellent purifier of the blood. By a very small expenditure of money, the purchaser has a bottle of the Sarsaparilla Compound, and a box containing the Saline powder; the only necessary accompaniment is a pitcher of ice water, and you have a perfect fountain, where, reader, you may refrigerate to your heart's content. A little of the saline mixed with the prepared Sarsaparilla will give you as grateful a glass of Sarsaparilla Mead as can be found in the city. We speak from experience; don't take our word, but go and get the article of Wm. Brown, the inventor, 451 Washington street. It may be found at the store where you purchase your groceries, or at any of the druggists. Call for Wm. Brown's No. 1 Silver Top—Boston Herald.

None is genuine except signed by the proprietor, Wm. Brown. Newport, July 13 1840.

TO LOVERS OF COMFORT AND EASE.

TOOTH-ACHE! TOOTH-ACHE!

Why will you suffer with the TOOTH-ACHE, when there is a perfect remedy?

BROWN'S EXTRACT OF GALL AND KREOLITE will cure the Tooth-ache, and all the other ailments of the mouth. It is a perfect remedy, and is sold by all the druggists in the city. It is a perfect remedy, and is sold by all the druggists in the city.

For Sale by R. J. TAYLOR and R. R. HAZARD, in Newport, A. D. Thornton & Co. in New Bedford—and by the Druggists in Providence.

BENJ. MUMFORD, Attorney for SAM'L ST. JOHN, Jun'r. Assignee. August 15, 1840

BECKWITH'S

ANTI-DYSPEPTIC PILLS

THE ANTI-DYSPEPTIC PILLS have been successfully employed in almost every variety of functional disorder of the stomach, bowels, liver and spleen; such as heartburn, acid eructations, nausea, headache, pain and distention of the stomach and bowels, indigestion, colic, jaundice, flatulency, habitual constiveness, loss of appetite, sick headache, sea-sickness, &c. &c. They are a safe and comfortable aperient for females during pregnancy and subsequent confinement, relieving sickness at the stomach, headache, heartburn, and many of the incidental nervous affections. Literary men, students, and most persons of sedentary habits, find them very convenient. Those who indulge too freely in the pleasures of the Table, find speedy relief from the sense of oppression and distension which follow, by taking the Pills. As Dinner Pills they are invaluable. Those who are drinking mineral waters, and particularly those from southern climates, and agree and never distress, will find them a valuable adjunct. Those who are exposed to the vicissitudes of weather on voyages or journeys, can take them at all times with perfect safety. In full doses they are a highly efficacious and safe Antacid medicine. They seldom or never produce sickness at the stomach or griping.

TESTIMONIALS.

From the mass of evidence published in favour of these pills, a few certificates are selected (as many as the limits of an advertisement will conveniently admit of) to show the character of the Pills as well as of the Proprietor, which last is deemed of some importance to establish confidence, at a time when the public are imposed on by so many ignorant and unprincipled imitators.

Daguer County, N. C. March 7, 1834.

Dear Sir—I have with your permission used your Anti-dyspeptic Pills in my Practice for ten years, and have thoroughly tested them in my own person; for you know I was much of a dyspeptic and you will find something of a hypochondriac, and have found them an invaluable remedy. My sick headache is uniformly relieved by them. I feel the public should be made acquainted with their value and receive the benefits of a medicine calculated to do so much good, and to save them from the too common and unadvised use of mercurial preparations. Truly yours,

ELIJAH CROSBY, M. D.

The following Testimonial of the claims of these Pills to public patronage, has been selected from many of similar import, recently furnished.

From the Rt. Rev. Levi S. Lee D. D., Bishop of North Carolina.

Raleigh, March 2, 1835. Having for the last three years, been intimately acquainted with Dr. John Beckwith, of this city, and enjoyed his professional services I take pleasure in stating that his character as a Christian gentleman, and experienced Physician, entitles his testimony, in regard to the use of his Anti-dyspeptic Pills, to the entire confidence of that public. My experience of the good effects of these Pills, for two years past, satisfy me, other eminent value, particularly in aiding impaired digestion, and warding off bilious attacks. Having been for a long time subject to the annual recurrence of such attacks, I was in the habit of resorting for security against them, and with very partial success, to a liberal use of Calomel or Blue Pill. But since my acquaintance with the Anti-dyspeptic Pill of Dr. Beckwith, I have not been under the necessity of using Mercury in any form, besides being wholly exempt from bilious attacks. Several members of my family are experiencing the same beneficial effects.

L. S. IVES.

The above PILLS are for sale in Newport, in Newport, by R. TAYLOR Newport, Aug. 22.

REYNOLDS' & PARNELL'S

Celebrated Female Health Restorative,

IS now admitted to be the only remedy upon which implicit confidence can be placed, for the diseases peculiar to the female constitution. It invariably removes obstructions, regulates in most cases of painful, too frequent or profuse menstruation, and has cured the most obstinate cases of fluoribus. Dr. J. Morrison, who has practiced medicine some 20 years, at Onondaga, N. Y., says, in relation to it,—"that it is the best medicine now in use. In case of retention, or suppression of the menses, I think it will sustain the appellation for specific. I have tried it in the worst cases with admirable success, and I wish for the good of suffering females, that all physicians would introduce it in their practice as I have found the pills to answer fully the recommendation." It is not a cathartic nor recommended to cure all diseases. Its effects are tonic, and aperient. For particulars, and the opinion of many of our eminent Physicians respecting it, you are referred to pamphlets left with the Agents for gratuitous distribution. Price two dollars per box, containing nearly 100 pills. Prepared and sold wholesale and retail by the proprietors Reynolds & Parnell, Pittsford Monroe county N. Y.—Edward Brinley, sole wholesale agent Boston, Mass. For Sale by R. R. HAZARD, in Newport, Herington, & Co., Fall River, J. Balch Providence.

MOFFAT'S

LIFE PILLS,

And PAINEX BITTERS.

MOFFAT'S VEGETABLE LIFE

PILLS.

These Medicines are indebted for their name to their main test and sensible action in purifying the springs and channels of life, and enduring them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PAINEX BITTERS have been gratefully and publicly acknowledged by the persons benefited, and who were previously unacquainted with the beautiful philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDICINES recommend themselves in diseases of every form and description. Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and cruelties constantly settling around them, and to remove the hardened masses which collect in the convolutions of the small intestines. Other medicines only partially cleanse these and leave such collected masses to find as to produce habitual constiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death, and hence the prejudices of those well informed men against quick medicines, or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidney and the bladder, and by this means the liver and lungs, the healthful action of which entirely depends upon the regularity of the ordinary organs. The blood which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them through the veins, renews every part of the system, and triumphantly mounts the banner of health to the blooming cheek.

Moffat's Life Medicines, have been the roughly tested and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the heart, Loss of appetite, Heart burn and Head ache, Restlessness, Irritability, Anxiety, Langour and Melancholy Constiveness, Diarrhoea, Cholera, Fevers, all kinds, Rheumatism, Gout, Dropsy, all kinds, Sores, scrofulous eruptions, and blood Complexions, eruptive Complaints, scalds, cloudy and other disagreeable complexion, salt rheum, erysipelas, common colds and influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly the Life Medicines have been most eminently successful, so much so that in the Fever and Ague districts, Physicians almost unanimously prescribe them.

All that Mr. Moffat requires of his patients, is to be particular in taking the Life Medicine strictly according to the directions. It is not by a newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit. It is alone by the result of a fair trial.

MOFFAT'S MEDICAL MANUAL

designed as a domestic guide to health. This little pamphlet edited by W. B. Moffat 375, Broadway, New-York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will be found highly interesting to persons seeking health. It treats upon prevailing diseases, and the causes thereof. Price 25 cents—for sale by Mr. Moffat's agents generally.

These Valuable Medicines are for sale

R. J. TAYLOR'S

Medicine Store, No. 148, Thames-street

Newport, (R. I.)

Where the Pills can be obtained for 25 cents, 50 cents, or \$1 per box; and the Bitters for \$1 or \$2 per bottle.—Numerous Certificates of the wonderful efficacy of both may be there inspected.

Newport, May 16, 1840.

NOTICE ALL.

THE Subscriber deems it necessary

to close up all Notes and Accounts appertaining to the late firm of Weeden & Bull, and to this end requests all who are indebted to said firm, (except in the few cases where credit has been particularly stipulated for,) to make immediate payment, or offer satisfactory terms for the future liquidation of the same; as all such Notes and accounts as remain unpaid, on the 1st day of Feb. next, where the non payment of the same is an act of neglect, rather than of ability, must be sued for collection.

I cannot recognise the correctness of the principle of charging Good customers more than a fair profit, to make up for losses occasioned by selling to those who are reputed for bad pay;—and as I solicit the patronage of those only who are able, and willing to pay, I do it with a view to sell to all my Customers alike, at as small a profit as I can possibly afford to.

HENRY BULL, jun.

Newport, Jan. 4, 1840.

Caution to purchasers of

Rhode-Island Coal.

THE public are hereby cautioned against purchasing Coal of the Rhode-Island mines, situate in Portsmouth, of one Otis T. Peters, or from any other persons claiming to act under any pretended authority from said Peters.—Said Peters is not, nor has he ever had any authority whatever to dispose of any Coal taken from the mines. I also forbid all persons who may have received coal from said Peters to sell on commissions, or such as may be indebted for coal purchased of him, to account to said Peters for the same, as they will be held responsible therefor to the subscriber, who is owner of one half of said Portsmouth mines, as may be seen by examining the records of land evidence in Portsmouth.

CHARLES F. SPEIKER.

Portsmouth, R. I. 30th June, 1840.

DR JAYNE'S EXPECTORANT

WE consider it a duty to call public

attention to this admirable preparation for PULMONARY DISEASES—Coughs, Colds, Consumptions, Spitting Blood, Asthma, Bronchitis, Affecting Lung Cough, &c. It is used by every high approved by persons of the first respectability, but we feel confident in saying the trial of its efficacy will be its best recommendation.

DR JONATHAN GOING, President

of the Granville College, Ohio, (late of New York,) in a letter to Dr. Jayne, dated New York, December, 1836, says: "He was laboring under a severe cold, cough and catarrhes, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation. It was perfectly cured by using this Expectorant."—Mrs. Deeks, Salem N. J., was cured of Asthma of twenty years standing, by using two bottles of this medicine.

—Mrs. Ward, also of Salem, was cured the same complaint by one bottle.—A young lady, also of Salem, who was beloved by her friends to be for ever, with Consumption was perfectly restored to health by this medicine.—Dr. Hamilton, of St. James, South Carolina, was greatly benefited by it, cough, hoarseness and soreness of the lungs, and on using a bottle of this medicine less permanent relief.

Mr. Nicholas, Sen. one of the Deputies of the First Baptist Church in this city, is benefited perfectly cured by it—after having suffered for sixty years with Cough, Asthma and Spitting of blood, which he has remedied by its use.

The Rev. C. C. P. Crosby, late Editor of the American Baptist, writes as follows:—

New-York, June 15, 1835.

To Dr. Jayne.—Dear Sir,—I have made use of your Expectorant, personally and in my family, for the last six years, with great benefit. Indeed I may consider my life prolonged by the use of this valuable medicine, under the blessing of God, for several years. I may say almost as much in your case of my wife, and also of the Rev. Wm. Timson, of the Island of Jamaica. For cases of cough, inflammation of the chest, lungs, and throat, I do most unhesitatingly recommend this as the best medicine I have tried. My earnest wish is, that this afflicted as I have been, may experience the same relief which I am persuaded the you, by using your Expectorant. C. C. P. CROSBY.

The following Certificate is from a practicing PHYSICIAN and a much respected Clergyman of the Methodist society—

Andover Town, Va. Aug. 27, 1835.

Dr. Jayne, Dear Sir,—I have been using your Expectorant extensively in my practice for the last three months, and for all attacks of Colds, Coughs, Inflammation of the Lungs, Consumption, Asthma, Pains, and Weakness of the breast it is decidedly the best medicine I have tried. Very respectfully yours,

R. W. WILLIAMS.

The Rev. JOSEPH RUSLING, well known in this City as a pious and popular Clergyman of the Methodist Episcopal Church, in letters to the proprietor says that he has had repeated attacks of spitting blood, and violent hemorrhage from the chest for sixteen years,—and had suffered dreadfully Asthma, pain in his breast, difficulty breathing, dyspepsia, night sweats, and a cold dry Cough, by which his constitution was completely undermined
